

# American Journal of ORTHODONTICS

---

*Official publication of the American Association of Orthodontists,  
its constituent societies, and the American Board of Orthodontics*

## *Editors*

**T. M. Graber, D.M.D., M.S.D., Ph.D.**

*Editor-in-Chief*

1717 Howard St., Evanston, Illinois 60202

Telephone: (312)869-0440

**Earl E. Shepard, D.D.S.**

*Business Editor*

225 South Meramec Avenue, St. Louis, Missouri 63105

**Thomas J. Zwemer, D.D.S., M.S.D.**

*Editor of Reviews and Abstracts*

Medical College of Georgia, Augusta, Georgia 30902

**Wayne G. Watson, D.D.S.**

*Past Editor*

7433 Herschel Avenue, Suite 2, La Jolla, California 92037

**B. F. Dewel, D.D.S.**

*Editor Emeritus*

2007 Bennett Avenue, Evanston, Illinois 60201

**J. A. Salzmann, D.D.S.**

*Editor Emeritus of Reviews and Abstracts*

25 Sutton Place South, New York, New York 10022

## *Editorial Coordinator*

**Judith Berns**

## *Senior Manuscript Editors*

**Phyllis L. Rodgers**

**Rose Mary Goerke**

VOLUME 88

# Subject index

## A

- Acoustic-speech study of patients who received orthognathic surgery (Bowers, Tobey, and Shaye), 373
- Activator, Fränkel appliance, and fixed appliance, cephalometric changes associated with treatment using (Remmer et al.), 363
  - treatment, response to, in Class II malocclusions (Vargervik and Harvold), 242
- Adenoid relationships during facial growth, serial headfilm evaluation of, 175 (Abst.)
- Adhesives; in vitro bond strength of treated direct-bonding metal bases (Siomka and Powers), 133
- Adolescent populations from Iowa and Northern Mexico, cephalometric comparisons of dentofacial relationships of (Bishara and Fernandez), 314
- Airway pressures during breathing in normal and nasally incompetent subjects, 358 (Abst.)
- Allergy, nickel, and orthodontic treatment, 81 (Abst.)
- Alloy, new orthodontic, Chinese NiTi, 356 (Abst.)
- Alveolar bone loss; periodontal complication during orthodontic therapy (Barack, Staffileno, and Sadowsky), 461
  - crestal bone levels and apical root resorption, relationship of relapse to, 525 (Abst.)
- American Association of Orthodontists, Albert H. Ketcham Memorial Award, 528
  - Committees of the Board, 1985-1986, 360
  - meeting calendar, 89, 179, 271, 359, 451, 529
  - officers and organizations, directory, 90, 180, 272, 362, 452, 530 for 1985-1986, 450
  - Orthodontics today and the young men who made it all possible, 517 (Guest editorial)
  - research awards, information for, 270
  - prizes for 1986, 269
  - Salzmann lecture recipient, 529
  - Special Committees of the Association, 1985-1986, 360
  - Table Clinic Awards, 1985, 361
- American Board of Orthodontics, 179
  - Arthur A. Dugoni elected president of, 270
  - conducts annual Phase III examination, 88
  - eligibility for Phase III of, 269
  - Orthodontics today and young men who made it all possible, 517 (Guest editorial)
- American Dental Association names new executive director, 527
- symposium, 529
- AMERICAN JOURNAL OF ORTHODONTICS; hail to the chief, 170 (Editorial)
  - Journal for Century Twenty-one, 261 (Editorial)
  - Orthodontics today and young men who made it possible, 517 (Guest editorial)
  - reflections, trends, and challenges, 77 (Editorial)
  - Thomas Zwemer named editor of Reviews and Abstracts, 178
- Ankylosed teeth as abutments for maxillary protraction (Kokich et al.), 303
- Ankylosis, root resorption, and loss of attachment, 442 (Letters to the editor)

July, pp. 1-90; August, pp. 91-180; September, pp. 181-272; October, pp. 273-362; November, pp. 363-452; December, pp. 453-540.

- Apical root resorption and alveolar crestal bone levels, relationship of relapse to, 525 (Abst.)
- Appliances, Crozat, perspective of, with case reports of present use (Parker), 1
  - fixed; Begg-edgewise diagnosis-determined totally individualized orthodontic technique: foundations, description, and rationale (Hocevar), 31
  - lingual, speech effect of, 525 (Abst.)
  - orthodontic; reassessment of force magnitude in (Quinn and Yoshikawa), 252
  - quad helix, effects on maxillary complex induced by, 83 (Abst.)
  - speech adaptation to bonded lingual orthodontic, 358 (Abst.)
- Arch, Nance holding, comparison of, 267 (Abst.)
- Arch widths in adults with normal occlusion and adults with Class II, Division I malocclusion, comparison of (Staley, Stuntz, and Peterson), 163

## B

- Basilar multiplane cephalometric analysis (Grayson et al.), 503
- Beauty and facial proportions, Japanese sense of, 523 (Abst.)
- BEDDTIOT; Begg-edgewise diagnosis-determined totally individualized orthodontic technique: foundations, description, and rationale (Hocevar), 31
- Begg and segmental edgewise orthodontic techniques, cephalometric comparison between, 525 (Abst.)
  - edgewise diagnosis-determined totally individualized orthodontic technique: foundations, description, and rationale (Hocevar), 31
- Bilateral relationship of maxillary dentition as measured from foramen spinosum, 268 (Abst.)
- Bioengineering analysis of orthodontic mechanics, 446 (B. rev.)
- Biomechanics; Begg-edgewise diagnosis-determined totally individualized orthodontic technique: foundations, description, and rationale (Hocevar), 31
- Bite force discrimination, jaw muscle fatigue and, 356 (Abst.)
- Bonding system, "single-step," tissue reactions to primers used in (Altuna and Freeman), 308
- Bond strength, in vitro, of treated direct-bonding metal bases (Siomka and Powers), 133
- Bone and lateral pterygoid muscle, temporomandibular joint relations of, 176 (Abst.)
- Brackets, comparison of indirect lingual, placement by practitioners and commercial laboratory as related to crown torque, 266 (Abst.)
  - "DynaLok" and foil-mesh, comparison of enamel detachments after debonding between, 266 (Abst.)
  - in vitro bond strength of treated direct-bonding metal bases (Siomka and Powers), 133
  - orthodontic, single-piece milled, in vitro evaluation of retentive strength of, 523 (Abst.)

## C

- Canadian Association of Orthodontists; 1985 annual scientific meeting, 179
- Canine and incisor, mandibular, crowding changes in mixed dentition, prediction of (Sampson and Richards), 47

- Cephalometric analysis of rest position, dentoskeletal and tongue soft-tissue correlates (Lowe et al.), 333  
changes associated with treatment using activator, Fränkel appliance, and fixed appliance (Remmer et al.), 363  
changes in soft-tissue chin after orthodontic treatment, 266 (Abst.)  
comparisons between Begg and segmental edgewise orthodontic techniques, 525 (Abst.)  
of dentofacial relationships of two adolescent populations from Iowa and Northern Mexico (Bishara and Fernandez), 314  
radiography, evaluation of rare earth intensifying screens for, 268 (Abst.)
- Cephalometrics; basilar multiplane cephalometric analysis (Grayson et al.), 503  
longitudinal changes in three normal facial types (Bishara and Jakobsen), 466
- Class II, Division 1 malocclusions, nonextraction treatment of (Arvystas), 380  
malocclusions, response to activator treatment in (Vargervik and Harvold), 242
- Class III malocclusion; functional regulator (FR-3) of Fränkel (McNamara and Hugel), 409
- Cleft lip, unoperated bilateral, dentofacial findings in two individuals with (Bishara et al.), 22
- Cleft of lip, median, unoperated, dentofacial findings in child with, at 4 years of age (Bishara et al.), 157
- Condylar cartilage in vitro, mandibular, growth regulation of, 267 (Abst.)  
growth, control of: experimental evaluation of role of lateral pterygoid muscle in (Whetten and Johnston), 181  
translation in human mandibular movement, functions of (Smith), 191
- Craniofacial complex, effects of orthopedic forces on, utilizing maxillary protraction, 83 (Abst.)  
photoelastic effects of maxillary protraction on (Itoh et al.), 117  
morphology and initial reactions to high-pull headgear traction, holographic and cephalometric study of relationship between (Duterloo, Kragt, and Algra), 297  
human, development of, during late embryonic and early fetal periods (Diewert), 64
- Crib, Crozat; perspective of Crozat appliance with case reports of present use (Parker), 1
- Crossbite, posterior, sucking habits and their relation to, in 4-year-old children, 81 (Abst.)
- Crowding, mandibular incisor and canine, changes in mixed dentition, prediction of (Sampson and Richards), 47
- Crown to torque, comparison of indirect lingual bracket placement by practitioners and commercial laboratory as related to, 266 (Abst.)
- Crozat appliance, perspective of, with case reports of present use (Parker), 1  
technique, 523 (B. rev.)
- Cyclic nucleotides; effects of cyclic 3'5' adenosine monophosphate and cyclic 3'5' guanosine monophosphate upon sutural expansion by orthopedic force, 175 (Abst.)
- D**
- Dawson, W. James, appointed to Board of Dental Examiners, 88
- Debonding, enamel detachments after, comparison between Unitek's "DynaLok" bracket and foil-mesh bracket, 266 (Abst.)
- Dental and facial attractiveness for epidemiologic use, validity and reliability of ratings of (Howells and Shaw), 402  
skeletal changes following functional regulator therapy on Class II patients (McNamara, Bookstein, and Shaughnessy), 91  
profession, 353 (Guest editorial)
- sexual, somatic, and skeletal maturity, interrelationships among measures of (Demirjian et al.), 433
- Dentistry, internal medicine for, 80 (B. rev.)
- Dentistry, operative, 80 (B. rev.)
- Dentition, mixed, prediction of mandibular incisor and canine crowding changes in (Sampson and Richards), 47

- Dentofacial complex, effects of anterior repositioning of mandible on, 357 (Abst.)  
findings in child with unrepaired median cleft of lip at 4 years of age (Bishara et al.), 157  
in two individuals with unoperated bilateral cleft lip (Bishara et al.), 22  
maturation of untreated normals (Sinclair and Little), 146  
orthopedics in relation to somatic maturation (Pancherz and Hägg), 273  
relationships of two adolescent populations from Iowa and Northern Mexico, cephalometric comparisons of (Bishara and Fernandez), 314
- Dentoskeletal and tongue soft-tissue correlates, cephalometric analysis of rest position (Lowe et al.), 333
- Deutsche Gesellschaft für Kieferorthopädie Congress held, 528
- Dugoni, Arthur A., elected president of the American Board of Orthodontics, 270

**E**

- Editorial, guest, orthodontics today and the young men who made it all possible, 517  
our profession—Let's sing along! 353  
whither and why? 439
- Hail to the Chief, 170  
reflections, trends, and challenges, 77  
reflections, trends, and challenges (erratum), 171  
The Journal for Century Twenty-one, 261
- Educational excellence, achieving, 447 (B. rev.)
- Embryology; development of human craniofacial morphology during late embryonic and early fetal periods (Diewert), 64
- Enamel detachments after debonding, comparison between Unitek's "DynaLok" bracket and foil-mesh bracket, 266 (Abst.)
- Eruption, third-molar, prediction, 177 (Abst.)
- Esthetics; validity and reliability of ratings of dental and facial attractiveness for epidemiologic use (Howells and Shaw), 402
- Etching; in vitro bond strength of treated direct-bonding metal bases (Siomka and Powers), 133
- European Orthodontic Society, 62nd Annual Congress, 449
- Extraction sites, long-term periodontal status of teeth moved into (Reed, Polson, and Subtelny), 203

**F**

- Face, Caucasian, parameter of typical normality of, 448 (Abst.)
- Facial and beauty proportions, Japanese sense of, 523 (Abst.)  
dental attractiveness for epidemiologic use, validity and reliability of ratings of (Howells and Shaw), 402  
growth, serial headfilm evaluation of adenoid relationships during, 175 (Abst.)  
morphology; development of human craniofacial morphology during late embryonic and early fetal periods (Diewert), 64  
profile, perceptions of and their influence on decision to undergo orthognathic surgery (Bell et al.), 323  
types, longitudinal changes in three normal (Bishara and Jakobsen), 466
- Fixed appliance, activator, and Fränkel appliance, cephalometric changes associated with treatment using (Remmer et al.), 363
- Foramen rotundum, symmetry as measured from, 524 (Abst.)
- Force application and pain, relationship; initial tooth movement (Jones and Richmond), 111  
measurement of changes in oxygen concentration, redox potential, pH, and temperature in periodontal membrane during, 86 (Abst.)  
direction; photoelastic effects of maxillary protraction on craniofacial complex (Itoh et al.), 117
- extraoral, Kloehe type, movements of maxillary first molar with, 84 (Abst.)

## Force application—Cont'd

- magnitude in orthodontics, reassessment of (Quinn and Yoshikawa), 252
- measurement; clinical measurement of distally directed headgear loading (Bratcher, Muhl, and Randolph), 125
- orthodontic, initial stress induced in periodontal tissues at time of application of various types of, 82 (Abst.)
- orthopedic, effects of cyclic 3'5' adenosine monophosphate and cyclic 3'5' guanosine monophosphate upon sutural expansion by, 175 (Abst.)
- on craniofacial complex utilizing maxillary protraction, 83 (Abst.)
- Fränkel appliance, fixed appliance, and activator, cephalometric changes associated with treatment using (Remmer et al.), 363
- skeletal and dental changes following functional regulator therapy on Class II patients (McNamara, Bookstein, and Shaughnessy), 91
- therapy, mandibular repositioning with, 177 (Abst.)
- functional regulator (FR-3) of (McNamara and Hugel), 409
- Functional regulator (FR-3) of Fränkel (McNamara and Hugel), 409
- Functional regulator therapy, skeletal and dental changes following, on Class II patients (McNamara, Bookstein, and Shaughnessy), 91

## G

- Ginley, Thomas J., new executive director of American Dental Association, 527
- Gnathology, orthopedic, 522 (B. rev.)
- Growth, craniofacial; skeletal and dental changes following functional regulator therapy on Class II patients (McNamara, Bookstein, and Shaughnessy), 91
- dentofacial maturation of untreated normals (Sinclair and Little), 146

## H

- Headgear loading, distally directed, clinical measurement of (Bratcher, Muhl, and Randolph), 125
- traction, high-pull, holographic and cephalometric study of relationship between craniofacial morphology and initial reactions to (Duterloo, Kragt, and Algra), 297
- Hinge-axis position, reproducibility of kinematically located, 524 (Abst.)
- Holographic and cephalometric study of relationship between craniofacial morphology and initial reactions to high-pull headgear traction (Duterloo, Kragt, and Algra), 297
- Horowitz, Sidney L., appointed Edwin S. Robinson Professor of Dentistry, 178

## I

- Incisor and canine, mandibular, crowding changes in mixed dentition, prediction of (Sampson and Richards), 47
- inclination/intraoral pressures in Classes I, II, and III, 358 (Abst.)
- In memoriam, G. Fred Hale, 172
- Harold E. (Gene) Thompson, 173
- Neil J. Leonard, Sr., 444
- Sherwood Reed Steadman, 172
- Waldo O. Urban, 444
- William M. Jarrett, 173
- Internal derangement of temporomandibular joint, clinical, radiographic, and electromyographic study of patients with (Isberg, Widmalm, and Ivarsson), 453
- Intraoral pressures/incisor inclination in Classes I, II, and III, 358 (Abst.)

## J

- Jaw muscle(s) and bite force discrimination, vibratory stimulation of, 356 (Abst.)
- fatigue and bite force discrimination, 356 (Abst.)
- Jaw position sensitivity as function of degree of opening, 355 (Abst.)
- Jaw relationship, sagittal, linear evaluation of development of (Williams, Leighton, and Nielsen), 235

## K

- Kinematically located hinge-axis position, reproducibility of, 524 (Abst.)
- Kloehn type of extraoral force, movements of maxillary first molar with, 84 (Abst.)

## L

- Lateral pterygoid muscle, role of in control of condylar growth (Whetten and Johnston), 181
- Letters to the editor, 264, 442, 519
- Linear evaluation of development of sagittal jaw relationship (Williams, Leighton, and Nielsen), 235
- Lingual appliance, speech effect of, 525 (Abst.)
- Lip, median cleft of, unpaired, dentofacial findings in child with, at 4 years of age (Bishara et al.), 157
- Locus of Control Scale, Orthodontic, reliability and validity of (Tedesco, Albino, and Cunat), 396
- Longitudinal changes in three normal facial types (Bishara and Jakobsen), 466
- morphometric analysis and classification of Class II individual, 84 (Abst.)
- soft-tissue profile changes: study of three analyses (Bishara, Hession, and Peterson), 209
- Lowney, Jeremiah, Jr., elected chairman of Connecticut Board of Governors for Higher Education, 449

## M

- Malocclusion associated with TMJ changes in young adults at autopsy, 357 (Abst.)
- Class II, Division 1, adults with, comparison of arch widths in adults with normal occlusion and (Staley, Stuntz, and Peterson), 163
- nonextraction treatment of (Arvystas), 380
- Division 2; perspective of Crozat appliance with case reports of present use (Parker), 1
- longitudinal morphometric analysis and classification of Class II individual, 84 (Abst.)
- response to activator treatment in (Vargervik and Harvold), 242
- skeletal and dental changes following functional regulator therapy on patients with (McNamara, Bookstein, and Shaughnessy), 91
- Class III; longitudinal morphometric analysis and classification of Class III individual utilizing counterpart analysis, 85 (Abst.)
- treatment-induced errors in occlusion following orthognathic surgery (Rekow et al.), 425
- Mandible, changes in synovial fluid pressure due to altered positions of, 86 (Abst.)
- effects of anterior repositioning of, on dentofacial complex, 357 (Abst.)
- Mandibular condylar cartilage in vitro, growth regulation of, 267 (Abst.)
- movement, human, functions of condylar translation in (Smith), 191
- ramal height discrepancy on dental attrition, effects of, 524 (Abst.)
- repositioning with Fränkel appliance therapy, 177 (Abst.)
- Maturation, dentofacial, of untreated normals (Sinclair and Little), 146
- Maturity, somatic, skeletal, dental, and sexual, interrelationships among measures of (Demirjian et al.), 433

- Maxillary complex, effects on, induced by quad helix appliance, 83 (Abst.)  
dentition as measured from the foramen spinosum, bilateral relationship of, 268 (Abst.)  
growth, posttreatment changes of skeletal morphology following treatment aimed at restriction of (Fotis, Melsen, and Williams), 288  
protraction, ankylosed teeth as abutments for (Kokich et al.), 303  
photoelastic effects on craniofacial complex (Itoh et al.), 117  
Measurement, clinical, of distally directed headgear loading (Bratcher, Muhl, and Randolph), 125  
Medicine, internal, for dentistry, 80 (B. rev.)  
Microwave use, applications in dental techniques, 82 (Abst.)  
Midwestern Society of Orthodontists, 48th Annual Session, 451  
Missing children, 271, 450, 529  
Morphometric analysis and classification, longitudinal, of Class III individual utilizing counterpart analysis, 85 (Abst.)  
Morphometrics; development of human craniofacial morphology during late embryonic and early fetal periods (Diewert), 64  
Movement, mandibular, functions of condylar translation in (Smith), 191  
Multiplane cephalometric analysis, basilar (Grayson et al.), 503  
Muscle, lateral pterygoid, temporomandibular joint relations of bone and, 176 (Abst.)

N

- Nance holding arch, comparison of, 267 (Abst.)  
New Jersey Association of Orthodontists, 178  
News and comment, 88, 178, 269, 360, 449, 527  
Nickel allergy and orthodontic treatment, 81 (Abst.)  
NiTi, Chinese—New orthodontic alloy, 356 (Abst.)  
Nonextraction treatment of Class II, Division I malocclusions (Arvystas), 380  
Normality of Caucasian face, parameter of typical, 448 (Abst.)

O

- Occlusal errors following orthognathic surgery, treatment-induced (Rekow et al.), 425  
Value Scale; reliability and validity of Orthodontic Locus of Control Scale (Tedesco, Albino, and Cunat), 396  
Occlusion and temporomandibular disorders, fundamentals of, 447 (B. rev.)  
normal, comparison of arch widths in adults with, and adults with Class II, Division I malocclusion (Staley, Stuntz, and Peterson), 163  
Open-bite and control subjects, comparison of tongue posture in, 359 (Abst.)  
Orthodontic bracket, single-piece milled, in vitro evaluation of retentive strength of, 523 (Abst.)  
Locus of Control Scale, reliability and validity of (Tedesco, Albino, and Cunat), 396  
mechanics, bioengineering analysis of, 446 (B. rev.)  
technique, Begg-edgewise diagnosis-determined totally individualized: foundations, description, and rationale (Hoccevar), 31  
thesis listings, 1985, 527  
treatment, periodontal complication during (Barack, Staffileno, and Sadowsky), 461  
Orthodontically treated cases, effect of lower third molar position, path of eruption, and mandibular growth to lower anterior-crowding relapse of, 526 (Abst.)  
Orthodontics and periodontics, 522 (B. rev.)  
conventional, emotional impact of orthognathic surgery and (Kiyak, McNeill, and West), 224  
glass bead sterilizer, use in, 524 (Abst.)  
in the 80s, 521 (Letter to the editor)  
practice of, 439 (Guest editorial)

- Orthognathic surgery, acoustic-speech study of patients who received (Bowers, Tobey, and Shaye), 373  
and conventional orthodontics, emotional impact of (Kiyak, McNeill, and West), 224  
patient perceptions of (Flanary, Barnwell, and Alexander), 137  
perceptions of facial profile and influence on decision to undergo (Bell et al.), 323  
treatment-induced errors in occlusion following (Rekow et al.), 425  
Orthopedic gnathology, 522 (B. rev.)  
Orthopedics, dentofacial, in relation to somatic maturation (Pancherz and Hägg), 273

P

- Pain, force application and, relationship; initial tooth movement (Jones and Richmond), 111  
Palate formation; development of human craniofacial morphology during late embryonic and early fetal periods (Diewert), 64  
Patient perceptions of orthognathic surgery (Flanary, Barnwell, and Alexander), 137  
Periodontal complication during orthodontic therapy (Barack, Staffileno, and Sadowsky), 461  
membrane, measurement of changes in oxygen concentration, redox potential, pH, and temperature in, during force application, 86 (Abst.)  
status, long-term, of teeth moved into extraction sites (Reed, Polson, and Subtelny), 203  
tissues, initial stress induced in, at time of application of various types of orthodontic force, 82 (Abst.)  
Periodontics and orthodontics, 522 (B. rev.)  
Photoelastic effects of maxillary protraction on craniofacial complex (Itoh et al.), 117  
Posttreatment changes of skeletal morphology following treatment aimed at restriction of maxillary growth (Fotis, Melsen, and Williams), 288  
Prediction of mandibular incisor and canine crowding changes in mixed dentition (Sampson and Richards), 47  
third-molar eruption, 177 (Abst.)  
Pressures, airway, during breathing in normal and nasally incompetent subjects, 358 (Abst.)  
Professional practice, 439 (Guest editorial)  
Profession of dentistry, 353 (Guest editorial)  
Profile changes, longitudinal soft-tissue: study of three analyses (Bishara, Hession, and Peterson), 209  
facial, perceptions of and their influence on decision to undergo orthognathic surgery (Bell et al.), 323  
Protraction, maxillary, ankylosed teeth as abutments for (Kokich et al.), 303  
photoelastic effects on craniofacial complex (Itoh et al.), 117  
Pterygoid muscle, lateral, role of in control of condylar growth (Whetten and Johnston), 181

Q

- Quadrilateral analysis, 264, 442 (Letters to the editor)

R

- Ramal height discrepancy, mandibular, effects of on dental attrition, 524 (Abst.)  
Rare earth intensifying screens for cephalometric radiography, evaluation of, 268 (Abst.)  
Reconstruction, computed tomographic three-dimensional, of temporomandibular joint (Moaddab et al.), 342  
Research prizes for 1986, American Association of Orthodontists, 269

S

- Sagittal jaw relationship, linear evaluation of development of (Williams, Leighton, and Nielsen), 235

- Salzmann lecture recipient, 529  
 Scientific Congress held, 528  
 Silanation; in vitro bond strength of treated direct-bonding metal bases (Siomka and Powers), 133  
 "Single-step" bonding system, tissue reaction to primers used in (Altuna and Freeman), 308  
 Skeletal and dental changes following functional regulator therapy on Class II patients (McNamara, Bookstein, and Shaughnessy), 91  
   dental, sexual, and somatic maturity, interrelationships among measures of (Demirjian et al.), 433  
   morphology, posttreatment changes of, following treatment aimed at restriction of maxillary growth (Fotis, Melsen, and Williams), 288  
 Soft-tissue chin after orthodontic treatment, cephalometric changes in, 266 (Abst.)  
   correlates, tongue, dentoskeletal and: cephalometric analysis of rest position (Lowe et al.), 333  
   profile changes, longitudinal: study of three analyses (Bishara, Hession, and Peterson), 209  
 Somatic maturation, dentofacial orthopedics in relation to (Pancherz and Hägg), 273  
   skeletal, dental, and sexual maturity, interrelationships among measures of (Demirjian et al.), 433  
 Speech; acoustic-speech study of patients who received orthognathic surgery (Bowers, Tobey, and Shaye), 373  
   adaptation to bonded lingual orthodontic appliances, 358 (Abst.)  
   dentofacial findings in child with unrepaired median cleft of lip at 4 years of age (Bishara et al.), 157  
 Stainless steel and titanium wires, force relaxation in matched light, 268 (Abst.)  
 Sterilizer, glass bead, use in orthodontics, 524 (Abst.)  
 Stomatognathic dysfunction, morphological studies of temporomandibular joint in, by tomography, 82 (Abst.)  
 Stress, initial, induced in periodontal tissues at time of application of various types of orthodontic force, 82 (Abst.)  
 Sucking habits and their relation to posterior crossbite in 4-year-old children, 81 (Abst.)  
 Surgery, orthognathic, and conventional orthodontics, emotional impact of (Kiyak, McNeill, and West), 224  
   patient perceptions of (Flanary, Barnwell, and Alexander), 137  
 Surgical repair of cleft lip; dentofacial findings in child with unrepaired median cleft of lip at 4 years of age (Bishara et al.), 157  
 Sutural expansion by orthopedic force, effects of cyclic 3'5' adenosine monophosphate and cyclic 3'5' guanosine monophosphate upon, 175 (Abst.)  
 Symmetry as measured from foramen rotundum, 524 (Abst.)  
 Synovial fluid pressure, changes in, due to altered mandibular positions, 86 (Abst.)
- T
- Teeth moved into extraction sites, long-term periodontal status of (Reed, Polson, and Subtelny), 203  
 Temporomandibular disorders and occlusion, fundamentals of, 447 (B. rev.)  
   joint changes in young adults at autopsy, malocclusion associated with, 357 (Abst.)  
   computed tomographic three-dimensional reconstruction (Moadab et al.), 342  
   disorders, observation of tooth contact in patients with, 355 (Abst.)  
   dysfunction, 519 (Letter to editor)  
   in stomatognathic dysfunction, morphological studies of, by tomography, 82 (Abst.)  
   internal derangement of, clinical, radiographic, and electromyographic study of patients with (Isberg, Widmalm, and Ivarsson), 453  
   relations of bone and lateral pterygoid muscle, 176 (Abst.)  
 Thesis listings, orthodontic, 1985, 527  
 Tissue reaction to primers used in "single-step" bonding system (Altuna and Freeman), 308  
 Titanium and stainless steel wires, force relaxation in matched light, 268 (Abst.)  
 Tomography, morphological studies of temporomandibular joint in stomatognathic dysfunction by, 82 (Abst.)  
 Tongue posture in control and open-bite subjects, comparison of, 359 (Abst.)  
 Tooth contact in patients with TMJ disorders, observation of, 355 (Abst.)  
   movement, initial (Jones and Richmond), 111  
   reassessment of force magnitude in orthodontics (Quinn and Yoshikawa), 252  
 Treatment-induced errors in occlusion following orthognathic surgery (Rekow et al.), 425  
   orthodontic, nickel allergy and, 81 (Abst.)
